

The RdRp Summit - 2nd newsletter

We're happy to announce that [registration](#) for the first [RdRp Summit](#) is now open!

<https://rdrp.io/registration/>

The RdRp summit is being held in Valencia, Spain, on May 22-23 and will be fully hybrid.

The organising committee invites the submission of abstracts in the following topics:

- **Fundamentals of RNA virus operability** - Definitions of the term 'RNA virus', quality and confidence metrics, minimal reporting and metadata standards, novelty estimations, frequent false positives to be vigilant of
- **RNA virus categorisation and data centralization** - Guidelines for phylogeny or clustering, handling sequence and data deposition, automation of report filing and report testing
- Other ideas and suggestions are welcome!

Participants are also encouraged to submit one argument or data slide that may be called upon during the round table discussion sessions. An example is attached here. These may be emailed to us here at rdrp.summit@gmail.com.

To submit an abstract and/or register for the RdRp summit, complete the registration form [here](#). Please note that in-person places are limited. Once filled, we can only accept virtual registrants. Abstract submission closes on **March 25th, 2023**.

We look forward to receiving your submissions and seeing you at the summit!

All the best,
RdRp Summit organising committee

You received this email because you recently expressed interest in joining our mailing list or our committee believes your input in this discussion would be valuable. If you'd like to unsubscribe, please send [this](#) email. To re-subscribe, please send [this](#) email.
